

## Remote Learning at Churchtown Primary School

Working within this current COVID climate we have had to think very carefully about how we plan to teach and for children to learn at Churchtown. We have prioritised safe routines and mental health and well-being, whilst ensuring that gaps in knowledge and understanding are filled. Teachers are planning learning which starts with what the children know and that moves all children on. **It is essential that we continue to do this whether we are working in school or at home. In the event of a part or full school closure, the school will revert to remote learning via Tapestry or Google Classroom.**

As a result we have put together the following document which outlines our commitment to learning and gives clear guidance on what we are doing in school and what you and your child will be expected to do if they have to learn at home.
